

## Parental Permission Form & Agreement - Construction Volunteering

Building  
houses,  
Building  
hope

FCHH requires the completion and submission of this form prior to scheduling youth ages 16-17 years old to volunteer on the FCHH construction site.

As the parent/guardian of \_\_\_\_\_ age \_\_\_\_\_ who will volunteer on \_\_\_\_\_ as an **Individual** or as a **Member of a Group** (List Group Name: \_\_\_\_\_), I grant permission for him/her to volunteer for a full-day (9:00am-4:00pm) assisting with real-life construction work on a FCHH construction site.

### My son/daughter and I understand that:

This is a *real-life* construction site requiring volunteers to be aware of safety measures and to follow instructions provided by construction supervisors.

For their own personal safety, 16-17 year old volunteers may be limited in the types of tasks they may perform and the tools they may use. (Teens are prohibited from using power tools and working on tall ladders or high scaffolding).

Safety is more important than completing a task quickly.

While my son/daughter is with Habitat, Habitat staff are responsible for their safety and well-being in Rochester's inner city. Volunteers are signed up to work a full-day but if for some reason he/she must leave early, he/she *MUST* inform their supervisor of that fact and refrain from "just leaving."

FCHH carries secondary insurance. This means that if a volunteer is injured and there are expenses not covered by his/her own medical insurance, FCHH's insurance will typically cover those expenses.

I understand my son/daughter must sign-in at the site and provide an Emergency Contact name and phone number. I am aware of the potential hazards associated with construction work. I also agree to read all materials sent to my son/daughter regarding FCHH history and purpose, confirmation details, etc.
